PROJECTS

Webby - August 2022 - [Github](#) | [Live](#)

- Developed and collaborated within a team of 4 to build a social media application from the ground up, with the goal of connecting users through their hobbies.
- This project includes: a real-time group chat feature, an interactive network graph, user authentication, a special focus on accessibility and inclusion.

Technologies used: Javascript, Firebase, React, Redux, D3, MaterialUI, Netlify, Github, CSS

Every Daisy of the Week - August 2022 - [GitHub](#) | [Live](#)

- Worked with a team of 4 to create an online e-commerce full-stack application from scratch.
- Features include: a fully functioning cart that users can add and remove items from, checkout and payment functionality, cart functionality for un-authenticated and authenticated users, ability for users to leave product reviews.

Technologies used: Javascript, PostgreSQL, Express, Sequelize, React, Redux, Heroku, Stripe, Axios, Bootstrap, CSS

EDUCATION

FULLSTACK ACADEMY- GRACE HOPPER PROGRAM - MAY-SEPTEMBER 2022

- Developed multiple functional full-stack applications, including a single-page, online shopping application, various simple projects such as a simple music player, as well as a finished capstone project.

HOFSTRA UNIVERSITY - PSYCHOLOGY BA - 2020

GPA: 3.5

- Attended trainings on gender and sexuality, as well as being a mentor to younger LGBT+ students, helping them adapt to their new environment through the lens of diversity and inclusion.
